

Calculated Costs & Savings* of Prior ILPP Studies

We have saved counties over \$1.5 billion in just 17 years!

Year	Location	Population	Cost of Study*	Savings* (Resulting from Study)
2010	Allegheny County, Pennsylvania	1,281,666	\$434,278 (8 year contract)	\$100 Million Fixed Savings; \$10 Million/year
2009	Clark County, Washington	345,238	\$45,000	\$100,000/year
2007	Dane County, Wisconsin	463,826	\$140,000	\$3 Million/year
2005	St. Lucie County, Florida	192,695	\$177,480	\$2.3 Million/year
2004	Sedgwick County, Kansas	466,061	\$98,500	\$100 Million Fixed Savings; \$10 Million/year
2003	Greene County, Missouri	240,391	\$214,000	\$36 Million Fixed Savings; \$1.8 Million/year
2003	Snohomish County, Washington	606,024	\$126,500	\$1.6 Million/year
2001	Summit County, Ohio (Akron)	531,650	\$195,500	\$2 Million/year
2000	Spartanburg County, South Carolina	271,087	\$133,750	\$14 Million Fixed Savings; \$700,000/year
1999	Jefferson County, Alabama (Birmingham)	658,664	\$218,000	\$4 Million/year
1998	Douglas County, Nebraska (Omaha)	441,000	\$139,000	\$9 Million/year
1997	Salt Lake City, Utah	839,896	\$98,000	\$4 Million/year
1997	Montgomery County, Alabama	217,597	\$211,000	\$3 Million/year
1995	San Joaquin County, California (Stockton)	504,091	\$125,000	\$11 Million/year
1994	Hillsborough County, Florida (Tampa)	858,552	\$20,000	\$2.5 Million/year; jail medical study
1994	Hillsborough County, Florida (Tampa)	858,552	\$247,000	\$14 Million/year
1993	Orange County, Florida (Orlando)	714,579	\$150,000	\$10 Million/year

* Note: Costs are actual contract fees, including all direct expenses. Savings and/or cost avoidance are calculated by adding savings from each study recommendation, including calculations for beds and courtroom days saved. (There are some savings that would, in fact, overlap; i.e., the same inmate can only be released once. Also, most savings reoccur annually.
